Campsite Reservation Policy (Adopted by the Parks Commission on 12-14-04)

- Reservations must be made and paid for AT LEAST five (5) days prior to camping date.
- All campsite reservations need to be paid in advance to be considered finalized.
- A \$5 per reservation fee will be assessed for each new campsite reservation that is made. This fee will cover the additional operational costs associated with campsite reservations.
- Campsite reservations must be paid for within five (5) business days of the date the reservation is made. However, ALL camping reservations must be paid for NO LATER than five (5) days prior to camping date. For example, if a camping reservation is made five (5) days prior to camping date, the reservation MUST be paid for at the time the reservation is made. Reservations that are not paid for in the required time frame will be cancelled.
- Campsite reservations will be taken beginning the first business day of the calendar year.
- Campsite reservations will be site specific.
- CANCELLATION POLICY: Campsite reservations may be cancelled up to TEN DAYS prior to camping date. All camping fees, minus the \$5 reservation fee, will be refunded. Any cancellations less than ten days prior to camping date are non-refundable.
