**ALLEGAN COUNTY MEDICAL CARE COMMUNITY
ANNOUNCES MAJOR GIFT**

ALLEGAN, MICH. – The Allegan County Medical Care Community (ACMCC) is pleased to announce the receipt of a generous major gift from the estate of Mr. Robert Holthouse.

“We are very thankful for this generous gift,” states Bill Hekker, ACMCC Administrator. “Mr. Holthouse’s wife, Kathleen, was a resident with ACMCC in 2003/2004, and they expressed with this gift that they were very pleased with our caring staff and the high quality services we provide our communities.”

Hekker stated that many of ACMCC residents, clients and family members express their satisfaction through thank you cards and small contributions. This gift valued at approximately \$200,000 is an unexpected and amazing surprise! “We are extremely grateful, especially in these challenging financial times.”

Allegan County Medical Care Community

The ACMCC began “Caring for Generations” in 1866 as the Allegan County poor farm to provide for the disabled and infirmed in Allegan County. In 1970, the existing building was constructed. Today, through two major expansion projects to improve the level of service and to shift from the medical model of care to a more homelike environment, the current campus encompasses four separate living areas plus the Generations Adult Day Care program. The Allegan County Medical Care Community is an award-winning provider and Allegan County’s first choice for long-term care and short-term rehabilitation.

“SERVING THE AGED AND DISABLED WITH CARE, LOVE AND DIGNITY”
SINCE 1970.
